# Mr. Automobile Buyer:--

**HAVE YOU SEEN THE NEW DIXIE FLYER?**

**THE LAST WORD IN A MODERATE PRICED AUTOMOBILE.**

Phone me at Rock Hill, or address me at Box 234, Rock Hill, asking for a demonstration.

The DIXIE FLYER is a Southern car, made at Louisville, Kentucky.

I have recently secured the Agency for York, Cherokee, Union and Newberry Counties, and am in position to get machines—either Touring or Roadster—on short notice.

Look the "DIXIE FLYER" over, and place your order. I guarantee delivery within a very short time.

Both the Touring Car and the Roadster sell for \$1,495 delivered.

Beautiful in body and finish, constructed of the very best materials, equipped with a 45 horse power Herschel motor, it is the equal of any car of its class and the peer of many higher priced machines.

Let us demonstrate the DIXIE FLYER to you.

# Winter Is Approaching

MAKE PREPARATION FOR THAT COLD MORNING, when your FORD fails to start. Bring it to us and have it looked over by some one who knows what to do. If it does not need anything, we will tell you and make no charge. If it needs attention, we will tell you and you can have it put in shape here or it may be some small job you can do yourself. And by so doing you are able to save a big repair bill, as it is the small things that big troubles grow out of. We are in better shape to give you quick and efficient SERVICE than ever before. We have with us Mr. L. G. BABER, Manager, and York's Old Reliable Mechanic, ROBERT ALEXANDER, and a sufficient number otherwise to turn the job out while you wait. Give us a trial. If you are not already a customer and we will guarantee to satisfy you if it can be DID.

HAVE YOU EVER seen Little R. D. Alexander, Jr.? For his size, and age, we consider him the best ever placed in the repair room. He is just small enough to get under your car and deliver grease to that vital spot, which has always been neglected in the past on account of the other fellow's size. In order for the other fellow to do this job he would have to jack up the car, and Little R. D. takes a special delight in greasing the car, and the other fellow passed up and said: "Oh, no! It doesn't need anything."

# A Prediction

We Predict: That if the Cotton Farmers of the South Do Not Organize and Stand Together, they will be disappointed in the prices they will realize for their cotton—not only the cotton now on hands, but the new crop which is now approaching.

We want, in fact, we have a keen desire for the farmers to get a good price for the products of their farms; certainly the farmers are entitled to a fair price for their cotton.

Cotton, in our opinion, should Bring More Than Present Prices Compared with the Prices of Other Commodities.

The price of cotton in the future depends largely upon the success of the Cotton Association.

We are willing, yes, more than willing, to do our part to co-operate in this worthy movement, and those who are not interested in your welfare are not your friends.

Ask those who bank with us.

# FAMILY WASHING—AN EASY PROBLEM

For months the problem of the "Family Wash" has been a vexing one to scores of people of this community. The cost of the washerwoman has risen steadily until it is now almost prohibitive—but heretofore it has been "Pay or have dirty linen." But it is really not such a problem after all—it is really more a question of finding the Right Washing Machine and doing the washing at home with less worry, less expense and more satisfactorily. The RIGHT Washing Machine is here—It is driven by hand power, by electric power or gasoline motor power or any other kind of power, and it will do its work more thoroughly and more satisfactorily than is possible with the old fashioned up-and-down rub, rub, rub method. We have the

Equipped with Swinging Wringer and propelled with power, either hand or mechanical, and it is priced within your reach, and once you try a Maytag, you'll surely be pleased with it and stop worrying about the "week's washing."
